MICHAEL F. EASLEY
GOVERNOR

March 2, 2007

Dear Friends:

It is my privilege to welcome you to Raleigh for the *North Carolina Athletic Trainers Association (NCATA) Clinical Symposium and Business Meeting*. I know this event comes with much preparation and hard work.

Since 1974, the NCATA has served to support athletic trainers and promote and advance the profession of athletic training in North Carolina. This year's conference provides opportunities for continued education, discussions, and hands-on training for Athletic Trainers from across our state. Each member of the Association provides a valuable service to people including our student and professional athletes, and military personnel, as well as members of the FBI. I commend you for your work and for your dedication to the health of our state's athletes.

Mary joins me in welcoming you to this year's event. We wish you a successful and productive meeting.

With kindest regards I remain

Very truly yours,
